The TOUCHLESS AEROGLOVE DISPENSING UNIT is the safest way to protect your diners and servers from contact-contamination. The “air like” dispenser expands the glove as your guests hand motions over the unit. Then, once the glove is expanded guests/patrons or even servers simply slide their hands into their own glove and carry on to enjoy their buffet or dining experience! The Gloves offered are Biodegradable & Poly so there is no contamination. These can be used individually or over latex gloves, whatever is preferred. An anti-microbial addition to the plastic housing of the dispenser keeps things even more sterile.
