POWERED BY LAVA GEL®

FLAMELESS FOOD WARMING SOLUTIONS

Food delivery evolved.

The H°eats self-heated food warming pads can be used with just about any type of food packaging to allow you to deliver and serve perfect, oven-quality food to your customers and keep it hot for up to two hours.

Always safe, non-toxic, simple to activate, and completely portable.

Deliver and serve hot food in full-size pans, half-size pans, 1.5 lb. rectangular individual food trays, round food containers, most to-go containers, clamshell containers, even pizza pies in the box! No need for special packaging, H°eats will fit the packaging that you already use to deliver and serve your hot food.

Up to 2 hours of heat!
